The Enneagram is a powerful and dynamic personality system, with Christian roots, that describes nine distinct and fundamentally different patterns of thinking, feeling, and acting. Each one of us developed one of the nine patterns to protect a specific aspect of our self that felt threatened as our personality was developing. As you discover your Enneagram personality type, you will discover more about your original whole self. You will also understand more about the unconscious motivation from which you operate. Discovering your Enneagram personality type can help you learn how to bring positive change into your life. It can help the way you relate to yourself and others as well as give you a greater understanding of the circumstances and issues facing you.
